

Reimagining The Bethlehem Rose Garden

COMMUNITY MEETING: REIMAGINING BETHLEHEM'S ROSE GARDEN PARK
Wednesday, November 15, 7pm, Log Cabin, Rose Garden, Bethlehem
Please come and join the conversation!

This past summer, BEDCO, Bethlehem Backyards for Wildlife and the Mount Airy Neighborhood Association were awarded a grant ("Reimagining the Rose Garden") by the Lehigh Valley Community Foundation.

The grant helps fund the creation of a new plan for the Rose Garden that could make the park more walkable, bikeable, interesting, and comfortable for families and other park visitors.

Neighbors have made suggestions, including paths connecting different park areas, providing more places to sit throughout the park, adding signage/wayfinding, providing info about the park's many trees, and bike parking.

You are invited to attend our community meeting on November 15 to comment on the mapping and conceptual design for a "revitalized" Rose Garden prepared by our consultant.

And bring **your ideas for the Rose Garden!**
